

Support letter from **Gian Paolo BASSI**  
SVP 3DEXPERIENCE Works & Customer Role Experience  
**DS SolidWorks Corporation**

To:

1. Oded Leventer
2. Systematics
3. Dassault Systèmes SOLIDWORKS customers.

Dear all,

I am deeply saddened by the unspeakable pain and suffering caused to the Israeli people by the recent terrorist attacks that once again, and mistakenly, believe that violence of this nature can solve disputes and differences as profound as they might be.

I want to say that I personally stand by and with the Israeli people, where I have many friends and professional connections since many years.

I also want to share that I will do anything I can in my position to support Systematics and the Systematics customers in these difficult circumstances.

Sincerely and with profound empathy,

**Gian Paolo BASSI**
